As per the College of Nurses of Ontario (CNO) revised Medication practice standards, effective January 01, 2014, the requirements for Registered Nurses (RN) to dispense based on an order have changed. The CNO now requires specific information on the medication order. This will impact The Clinic at Middlesex-London Health Unit. The information required in order for medication to be dispensed by a RN consists of: order date, client name, medication name, dose, route, frequency, quantity, purpose, and prescriber's name, signature and designation.

To complement my client's care, I authorize The Clinic to provide or assist with the purchase of the following medications and/or devices for birth control:
