

# Environmental Health and Infectious Disease

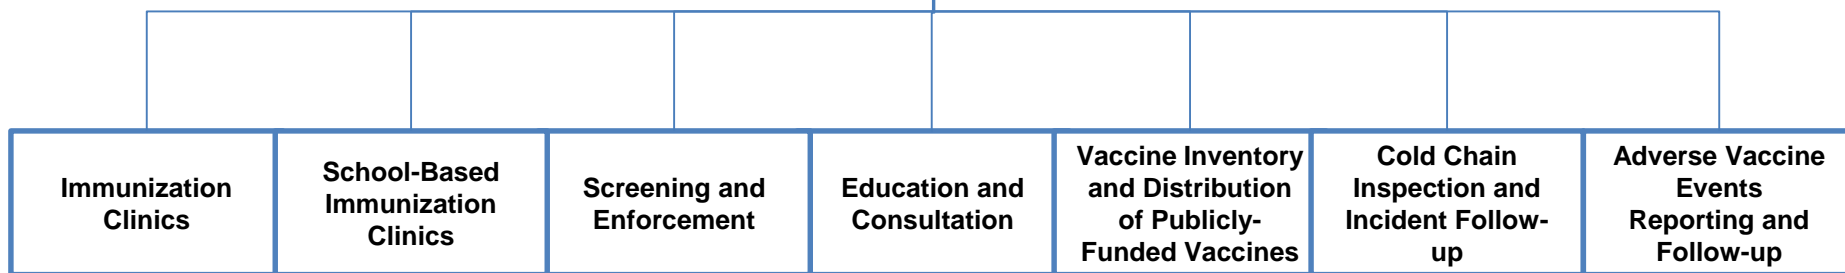

## Vaccine Preventable Diseases

**Total FTEs – 17.30 FTEs**

**Total Budget – \$1,638,371**

**2019-06-20 VPD Program Update**

**Jody Paget**  
**Manager, Vaccine Preventable**  
**Diseases**

### Program Highlights:

- Emphasis on increasing capacity for immunization delivery in the community by enhancing partnership with health care providers and offer on-going support to provide immunizations for their clients
- Continued implementation of the School Pupils Act with a goal of Screening/Enforcement for all elementary and high schools grades JK-Grade 12
- Concentrating efforts on screening in child care facilities in accordance with the Child Care Early Years Act
- Re-focus on providing immunization clinics in the high schools to increase uptake and reduce volume of students seen in the immunization clinic
