

FREE Workshop on Concussions

Prevention & Management of Concussions for Health Care Providers

Dr. Charles Tator

Charles H. Tator MD, PHD, FRCSC is trained in neurosurgery and neuropathology and was Chair of Neurosurgery, at the University of Toronto. He was Head of Neurosurgery at the Toronto Western Hospital, and the University Health Network. In 1992, he founded Think First, Canada, a national brain and spinal cord injury foundation aimed at reducing the incidence of catastrophic brain and spinal cord injuries.

Scott Haller

Scott has developed an advanced care model for the prevention of concussions – The SHIFT Concussion Management Program. This comprehensive program brings together health care practitioners, athletes, organizations, corporations and leagues to raise awareness and support, and provide pre and post-injury management for those athletes affected by concussion.
