

# HIV Education Series for Primary Care Clinicians

## Enhance your HIV knowledge and skills

Are you a primary care physician/nurse practitioner with limited experience in managing HIV? Join the HIV Education and Learning (HEaL) series to strengthen your ability to assess, diagnose, and manage patients at risk or living with HIV.

Each session is eligible for Mainpro+ 1 credit/hour (pending CFPC approval).

### Course Overview:

#### Session 1: HIV and STI Risk (Nov. 8 at 12:00PM)

With Dr. Charlie Guiang & Dr. Gord Arbess

- Understand Ontario's HIV epidemiology
- Identify at-risk patients & apply the 2023 Ontario testing guidelines
- Recognize late-stage HIV symptoms

#### Session 2: HIV Prevention (PrEP & PEP) (Nov. 15 at 12:00PM)

With Dr. James Owen and Dr. Charlie Guiang

- Learn risk reduction strategies
- Understand PrEP & PEP usage and effectiveness

#### Session 3: HIV Testing & Initial Management (Nov. 22 at 12:00PM)

With Dr. Gord Arbess and Dr. Charlie Guiang

- Explore testing methods & results interpretation
- Review antiretroviral therapy (ART) options

#### Session 4: HIV in Special Populations (Focus on Women) (Nov. 29 at 12:00PM)

With Dr. Charlotte Hunter, Dr. Charlie Guiang & Dr. Gordon Arbess

- Considerations with HIV in women, including prevention and reproductive health
