Sexually transmitted and blood-borne infections (STBBIs) are on the rise in York Region and Canada. 2SLGBTQIA+ patients continue to be disproportionately affected by STBBIs, with some patients reporting they leave York Region to access more inclusive care.

[Register for this interactive webinar](#) to help advance inclusive health care.

Objectives:

- **Expand Your Expertise:** Get up-to-date evidence on screening, testing and pre- and post-exposure prophylaxis for common STBBIs
- **Boost Patient Trust:** Learn strategies to comfortably and respectfully discuss sexuality and STBBIs with diverse patient populations
- **Understand Barriers:** Gain insights into the challenges 2SLGBTQIA+ patients face when accessing health and social services

This webinar has been certified for up to 2 MainPro+® credits by the College of Family Physicians of Canada and the Ontario Chapter.
